Non-members £20

Midlands Simply Governance Training Workshop

An overview of the structures, systems and processes concerned with
running a sustainable community food enterprise.

Simply Governance

A workshop to simulate the early planning stages of a community
food enterprise.

Suitable for development workers and members of the governing
body of a community food enterprise.

This workshop demystifies the various types and typical contents
of governing documents and how this relates to the wider
governance of the organisations, be they unincorporated,
companies or societies.

We will also explore some real governance problems of
community food enterprises and practical solutions to those
problems.

Lunch provided
