

**School Farms as Sites
for Learning**

ELBS/Animal Care

History

World War Two The Dig For Victory Garden

Yr9 students researched and planned a DFV garden using vegetables that would have been around in 1940's. Students planted it up at lunch time and we put hens and one of our piglets in ready for the grand opening.

Science

Why do we selectively breed our livestock?

Offer farm tours during lessons to show examples of selective breeding in action and explain **why** it is carried out.

Science

Make full use of all the farm facilities

Maths

Maths

- Work out the killing out percentage for your turkeys
- Calculate the total profit made during an enterprise
- Work out how much milk powder is needed to feed the calf.
- Add a competitive element

RE

Art/Photography

Creative writing

Business Studies

Vet Skills

Soft Skills

- Team work
- Adaptability
- Communication
- Critical Observation
- Conflict Resolution
- Problem solving

Community work

Chicks For Children

Farm Visits

Work Experience

- Students using our farm
- Our contacts allowing students to access other farms
